[LinkedIn](#)

## Skills

Ability to Multitask  
Fast Learner  
Communication Skills  
Effective Time Management  
Creative Thinking

## Languages

Spanish; Castilian

English

## Tech Stack

Angular | React Native | Java |  
SQL | Javascript | Git

## Profile

Graduated in Computer Science with a lot of desire and enthusiasm to learn about web development and mobile applications. In the short term I would like to work in major Spanish cities, such as Madrid or Barcelona and, in the long term, I would love to work in English speaking countries, such as Ireland or the United States.

## Employment History

### Intern, Singular Factory, Las Palmas de Gran Canaria

SEPTEMBER 2021 – JUNE 2022

Worked as a web and mobile developer in a SCRUM environment.

## Education

### Computer Science Degree, Universidad de Las Palmas de Gran Canaria, Las Palmas de Gran Canaria

SEPTEMBER 2017 – JUNE 2022

### Computer Science Degree, AGH University of Science and Technology, Kraków

SEPTEMBER 2020 – JUNE 2021

Erasmus Internship

## Projects

### Final Degree Project - Access to genetic variants

JANUARY 2022 – MAY 2022

Angular | Typescript | Docker

This is my final degree work. Its main objective is to provide the Research Unit of the Insular University Hospital Complex Materno-Infantil with a web application for filtering genetic variants that facilitates the detection of those that cause or may cause pathologies in patients, thus being able to prevent them or personalize the treatment received by each of them.

### MyNeeds - Wish lists and recommendations

JANUARY 2022 – JUNE 2022

React Native

- Second project as an intern at Singular Factory.
- Allows to create collaborative wish lists and share them with your contacts.
- Real-time chat.
- Product search using photo recognition.

### qiip - Project and time management

SEPTEMBER 2021 – DECEMBER 2022

Vue.js | SQL | Metabase

- First project as an intern at Singular Factory.
- Involved in fixing bugs and creating metrics through graphs and lists of data.

## Courses

### Single Page Web Applications with AngularJS, Coursera

MAY 2021 – JULY 2022

### Identifying Security Vulnerabilities, Coursera

APRIL 2020 – MAY 2022
